

Our Philosophy

We recognise and celebrate the diversity that contributes to the richness and uniqueness of our community.

We believe quality education is educators working in partnership with and valuing the perspectives of children, families and the community.

A safe, respectful, engaging and natural learning environment develops children's confidence to become resilient and curious life-long learners.

Providing opportunities to learn from and on Country fosters a greater understanding of First Nations ways of knowing and being while working towards a sustainable future.

Children grow and learn through a play-based curriculum that is challenging, intentional, rewarding, relevant, inspiring and fun.

We engage in self-assessment and reflection opportunities to review our practice against our philosophy statement.
